

**Product Overview:**

The LA-124 antenna is designed to mount on the rear BNC antenna connector of 216 MHz versions of our LT-800 transmitter, LR-100 receiver/amplifier, or LR-600 receiver/speaker. It can also be used to create a custom remote antenna, such as a wall plate mounted antenna. This antenna provides excellent coverage. It's not recommended for use with rack-mounted units.

Highlights:

- Mounts with BNC connector
- Use with transmitters & receivers
- Excellent coverage - up to 600 ft. (183 m)

Includes:

One (1) LA-124 90° Helical Antenna (216 MHz)

Product Specification: 90° Helical Antenna (216 MHz)	
Physical	
Length	4.5 in. (11.4 cm)
